ABOUT US

RIMMED SHPK

Founded in 2017, Rimmed Shpk is an Albanian company specialized in the production, processing, and distribution of consumer and professional-grade products.

We specialize in the production and distribution of a wide range of food-grade materials, including aluminum foil, baking paper, PE and PVC cling film, adhesive Tapes, Paper Cores, kitchen towels, toilet paper, napkins, V-folds, Facial Tissues.

With over 110 employees and a modern organizational structure, Rimmed operates advanced production lines and a dynamic distribution network serving both local and international clients. All products are manufactured under strict quality and food safety systems, in compliance with ISO 9001 and EU Regulation (EC) No. 1935/2004 on food contact materials.

As part of our commitment to environmental responsibility, our paper products are FSC® certified, ensuring that the raw materials are sourced from responsibly managed forests. We continuously strive to reduce our environmental impact by offering eco-friendly solutions that combine performance, safety and sustainability.

Rimmed Shpk is proudly made in Albania, serving homes and businesses across the region and beyond.

- Aluminum Foil
- Cling film PE
- Cling film PCV
- Baking paper

*Note: This catalog presents only our standard products.
We can also manufacture customized products according to clients' specific requirements, dimensions, and specifications,
including Private Label production.*

ALUMINUM FOIL FOR FOOD USE

Aluminum foil is a high-quality, food-grade wrapping material designed to preserve freshness, protect against moisture and light, and support safe cooking and storage. Widely used in kitchens, restaurants, bakeries, and catering, it offers excellent heat resistance and is ideal for baking, grilling, freezing, and food packaging.

Key Features:

- Material: 100% food-grade aluminum.
- Excellent thermal conductivity – ideal for cooking and reheating.
- Protects food from moisture, light, and contaminants.
- Suitable for freezer, oven, and ambient storage.
- Easy to shape and tear – strong yet flexible.
- Available in various thicknesses and dimensions.
- Multipurpose: cooking, wrapping, lining, and storing food.

Technical Specifications:

- Thickness: 9–20 microns.
- Width: 28 cm / 45 cm.
- Length: 5 m - 150 m.
- Packaging: Roll with and without box (with or without cutter).

Certifications and Compliance:

Manufactured under ISO 9001 certified processes. Fully compliant with EU Regulation (EC) No. 1935/2004 for materials intended for food contact.

Your best choice

PE Plastic Wrap is a transparent, flexible, and self-adhering film made from polyethylene (LDPE/LLDPE), specially designed for food wrapping and preservation. Safe for direct food contact, it helps maintain freshness, prevents drying out, and protects food from external odors and contaminants.

Key Features:

- Material: LDPE / LLDPE (Low-Density Polyethylene).
- Natural cling without added adhesives.
- Certified for direct food contact.
- Moisture and grease resistant.
- Suitable for both refrigerator and ambient temperature storage.
- Easy to handle – ideal for home and professional use (restaurants, catering, supermarkets).

Technical Specifications:

- Thickness: 9–10 microns.
- Width: 30 cm / 45 cm.
- Length: 10-1000 m.
- Color: Transparent.
- Packaging: Roll in protective box or with cutter.

Applications:

- Wrapping meat, fruits, vegetables, baked goods, and prepared meals.
- Perfect for kitchens, supermarkets, food service, and catering industry.

Rimmed®

*Complies with EU Regulation (EC) No. 1935/2004 on materials intended for food contact and manufactured under ISO 9001 certified quality and food safety management systems.

Your best choice

PVC Cling Film is a high-transparency, flexible, and self-adhering plastic film made from polyvinyl chloride (PVC), specifically designed for professional food wrapping and preservation. Known for its superior cling and stretch properties, it forms a tight seal around food containers, maintaining freshness and extending shelf life.

Key Features:

- Material: PVC (Polyvinyl Chloride).
- Excellent cling performance and superior elasticity.
- High transparency for clear product visibility.
- Food-contact safe and compliant with relevant hygiene standards.
- Resistant to moisture, oil, and odor transmission.
- Suitable for refrigerator and ambient storage.
- Ideal for both domestic and professional food service use.

Technical Specifications:

- Thickness: 9–10 microns.
- Width: 30 cm / 35 cm / 40 cm / 45 cm.
- Length: 10 - 1000 m.
- Color: Transparent.
- Packaging: Roll in box with optional cutter.

Applications:

- Wrapping fresh produce, meat, cheese, baked goods, and prepared meals.
- Widely used in restaurants, catering, food processing, and supermarkets.

Rimmed®

*Produced in accordance with ISO 9001 standards, and fully compliant with EU Regulation (EC) No. 1935/2004 and EU Regulation (EU) No. 10/2011 for food contact materials.

Your best choice

Rimmed Baking paper is a heat-resistant, non-stick parchment paper specially designed for safe and convenient cooking, baking, and food preparation. It creates a protective barrier between food and cookware, eliminating the need for greasing and simplifying cleanup. Ideal for both home kitchens and professional bakeries.

Key Features:

- Made from high-quality cellulose, coated with food-grade silicone.
- Non-stick surface – prevents food from sticking or burning.
- Heat-resistant up to 220°C.
- Greaseproof and moisture-resistant.
- Suitable for oven, microwave, and freezer use.
- Eliminates the need for butter, oil, or sprays.
- Available in rolls or pre-cut sheets.

Technical Specifications:

- Material: 100% virgin cellulose.
- Silicone coating: 1 or 2 sides.
- Thickness: 38–42 gsm.
- Width: 30 cm / 38 cm / 40 cm.
- Length: 5 m- 200 m.
- Packaging: Roll in box or bulk-pack for professional use.

Certifications and Compliance:

Manufactured in compliance with ISO 9001 and EU Regulation (EC) No. 1935/2004. FSC® certified and made from responsibly sourced pulp. 100% biodegradable

Your best choice

Our adhesive tape is a versatile and high-performance solution designed for a wide range of packaging, sealing, and general-purpose applications. Made from durable materials and coated with strong acrylic adhesive, this tape ensures excellent adhesion to various surfaces, offering secure and long-lasting results for both industrial and household use.

Key Features:

- Material options: BOPP.
- Excellent bonding on cardboard, plastic, metal, and more.
- Smooth unwinding and easy application.
- Durable and tear-resistant.
- Available in transparent or brown.

Technical Specifications:

- Thickness: 40–50microns.
- Width: 42mm / 50 mm.
- Length: 20 m - 500 m.
- Core diameter: 3 inches (76 mm).
- Packaging: Individually wrapped or bulk-packed in boxes.

Certifications and Compliance:

Manufactured under ISO 9001 certified quality management systems and compliant with European packaging safety standards.

Note: This catalog presents only our standard products. We can also manufacture customized products according to clients' specific requirements, dimensions, and specifications, including Private Label production.

Our Rimmed paper cores and cardboard tubes are engineered to meet a wide range of industrial packaging and converting needs. Designed for strength, precision, and versatility, our cores are used across various applications, from aluminum foil and plastic films to paper reels and labeling solutions.

With full customization available in diameter, length, and wall thickness, we ensure that whatever your packaging challenge, we have a tube to match.

Our product range

- Paper cores for paper mills.
- Cardboard cores for plastic film rolls.
- Label and sticker rings.
- Custom-sized tubes.

ENVIRONMENTALLY FRIENDLY SOLUTIONS

ENGINEERED FOR PERFORMANCE

Our cardboard cores for paper mills are produced using selected raw materials and advanced converting technology. They are ideal for winding and unwinding applications in paper manufacturing, including printing paper, kraft paper, coated paper, napkins, paper towels, and silicone-treated baking papers.

We offer full flexibility in dimensions and strength, ensuring a precise fit for every machine and roll size.

ECO-FRIENDLY AND RELIABLE

Produced with recycled paperboard and designed for high mechanical performance, our cores offer:

- High compressive and crush strength.
- Excellent runnability on high-speed lines.
- Dimensional stability under high loads.
- 100% recyclable and FSC® certified materials.

Proudly made in Albania, Rimmed Shpk delivers performance, reliability, and sustainability in every tube.

Rimmed®

Technical Specifications:

- Inner core sizes: \varnothing 30 mm to \varnothing 76 mm.
- Core length: From 100 mm up to 6000 mm.
- Wall thickness: 2 mm – 20 mm.
- Customization: Various diameters and lengths available.
- Max strength:
 - – \varnothing 3" cores: up to 6000 N/100 mm.
 - – \varnothing 6" cores: up to 4000 N/100 mm.

Our cardboard tubes are ideal for winding and unwinding plastic films, stretch films, aluminum foil, paper, electrical cables, and more. They offer high durability, stability, and can be customized internally or externally to fit specific production requirements.

Key Applications:

- Cling film and aluminum foil.
- Plastic wrap and stretch film.
- Electrical cables.
- Paper reels.
- Textile industry rolls.

Advantages:

- High crush resistance and dimensional precision.
- Lightweight yet strong structure.
- Excellent runnability on high-speed machines.
- Internal/external surface customization (printing, coating, etc).
- Long-lasting and recyclable.

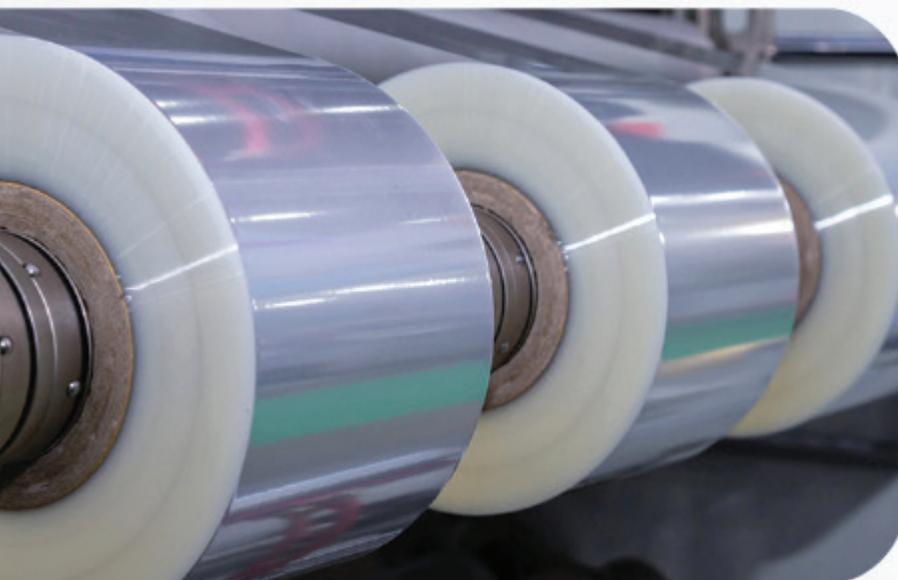

Rimmed®

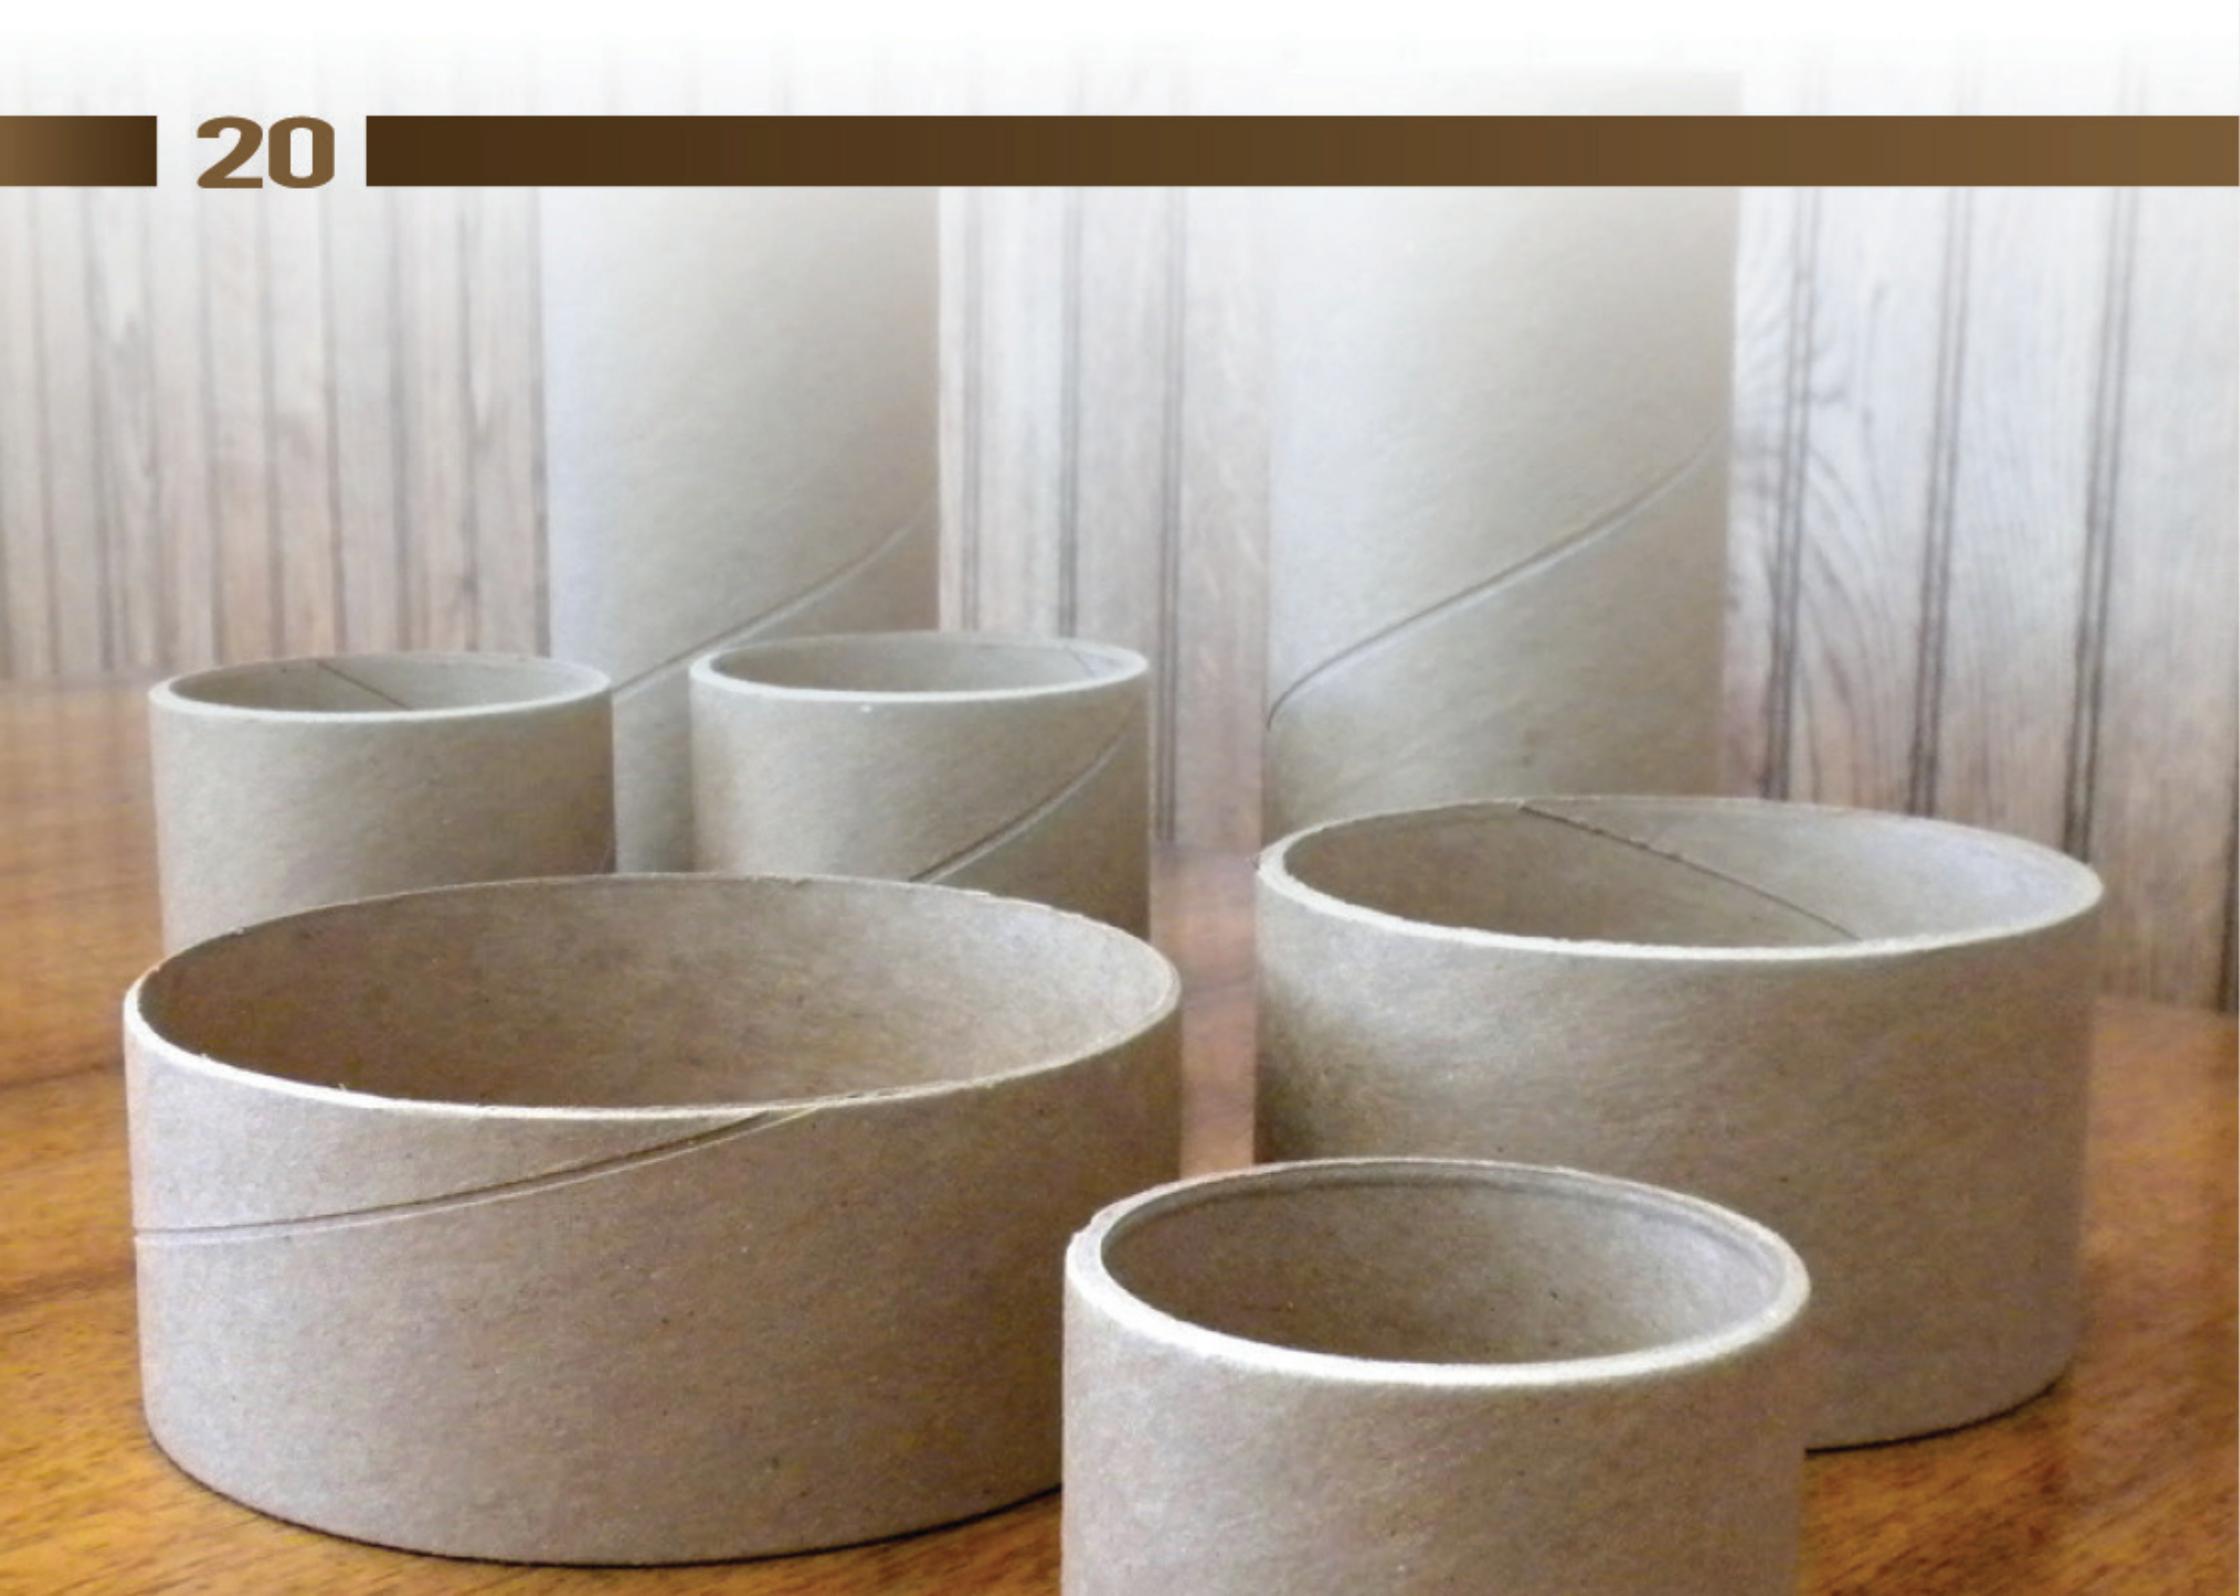

Technical Specifications – Plastic Film Applications:

- Inner core sizes: Ø 32 mm to Ø 76 mm.
- Core lengths: Up to 3500 mm.
- Wall thickness: Up to 15 mm.
- Max strength: Up to 4500 N/100 mm.
- Tubes for containers and industrial packaging.

Customization Options:

- Adhesive surface (with or without liner).
- Cores certified for food contact.
- Colored outer finish based on product or brand.
- Smooth or embossed surface.
- Internal and/or external printing in 1 color.
- Core depth and width customized by customer request.

LABEL RINGS

At RIMMED you will find label rings with excellent cut quality and customisable to the dimensions required by the customer.

Inner core | 32 to 76 mm

Ring length | 30 to 2500 mm

Max. thickness | 20 mm

Pre-cut | (on request)

Max. strength | max 6000 N/100mm or max 4000 N/100mm

Customization (upon request)

- vertical or recast packaging
- internal and external printing (one colour)

Note: This catalog presents only our standard products. We can also manufacture customized products according to clients' specific requirements, dimensions, and specifications, including Private Label production.

FOR EVERY USE, EVERYWHERE

At Rimmed Shpk, we produce high-quality tissue paper products tailored for two distinct markets:

1) Consumer Line – Household Use

Designed for everyday convenience, comfort, and hygiene.

Our household paper products combine softness, absorbency, and elegant packaging, perfect for families and personal care.

2) Professional Line – HoReCa & Business Use

Engineered for performance, efficiency, and high-volume consumption.

Our professional-grade paper products are used by restaurants, cafés, hotels, offices, and cleaning services across the region.

All paper products are made from high-quality virgin or recycled pulp, with FSC® certification available. We offer private label, custom packaging, and multiple paper grades for both retail and professional needs.
